

Agriculture Operations

December 2023 / Statistics

As a large landowner, Mosaic is dedicated to maximizing the highest and best use of our land before, during and after mining to establish productive long-term uses. Since agriculture is a proven post-reclamation land use, Mosaic continues to diversify our agriculture portfolio by exploring new crops as part of our mission to help the world grow the food it needs.

The following table shows the commodities we currently harvest commercially.

Ag Commodity	Acres	2023 Production	Comments
Citrus	2,900	65,000 boxes	Citrus greening is a problem
Blueberries	37	91,440 lbs.	Includes 3 acres of organic
Sod (St Augustine)	419	17,544 pallets	7 million square feet. 35 acres planned in 2024.
Sod (Bahia)	60	–	First cutting Spring 2024
Tilapia	–	1.098 million lbs.	–
Green Beans	170	34,670 Bushels	Spring 2023 crop
Green Beans	125	10,937 Bushels	Fall 2023 crop
Hay	55	435 rolls	–

! Work has begun on a perpetual commercial crop on Clay Settling Areas (CSA).

While they have not been grown for commercial consumption, the following crops have been grown successfully on reclaimed land in the past few years.

Sod

Potatoes

Bok Choy

Cabbage

Cauliflower

Squash

Pongamia
